Also includes 2 red LED's, 2 blue LED's for protecting night vision and 2 green LED's that will not "spook!" game and can easily identify your target or your position. Perfect for signaling in emergency situations. Ideal for automotive, aviation and marine, instrument and chart reading, military and police, hunters, hikers, campers and utility workers. Waterproof and corrosion resistant. Visible for over one mile. Lifetime LED's never need replacing. Features MSAT™ multi-switch advanced technology which allows correct choice of LED color, every time. Uses three AAA batteries (included). Black nylon belt sheath. Hang packaged.Retail \$32.95

CaraBeamer™ Clip Light.

2 3/4" overall. White LED that won't break or burn out, lasts over 100,000 hours and is visible over one mile. Illuminates paths, charts, locks, maps, etc. Constant or momentary on/off. Aluminum carabiner clip easily attaches to jacket, vest, purse, backpack, pocket, belt loop, keyring, etc. Includes two replaceable lithium batteries which last ten times longer than conventional batteries. Impact and water resistant. Hang packaged.Retail \$5.95 each

SWL001WT Titanium colored carabiner.

SWL005WT Black carabiner.

SWL3CRLL Galaxy™ 4-in-1 Flashlight. 6 3/4" overall. Silver finish aluminum construction with bail. Magnet in tailcap for hands free use. 3 Watt CREE™ with up to 100 lumen output. Lifetime CREE™ LED never needs replacing. 4-in-1 uses: Flashlight, CREE LED will never break, no bulbs to replace; Lantern, use enclosed carabiner hook to hang light in tent, on backpack, when hiking, climbing etc.; Emergency Flash, twist red filter onto flashlight end. Press pushbutton to turn on, then press again and hold button down 3 seconds until "Flash" mode is activated. Magnetized tailcap can be used to stand light up on vehicles, etc.; Work Light, excellent for auto repair, workshop, or anywhere that hands free lighting is needed. Uses 3 AAA batteries (included). Up to 12 hours burntime per battery set. Hang packaged.Retail \$36.95

SWL775LX Tactical Flashlight. This small 2 AA flashlight was designed for consumers and police departments, who want the extreme brightness and distance of the latest LED technology, yet aren't comfortable with the cost of CR123 batteries. This new 5 Watt Luxeon LED Flashlight is fully regulated which means the brightness you see with fresh batteries is the brightness you'll see just before batteries are depleted. Special circuitry stores power from the batteries and then delivers just the right amount to the bulb to maintain maximum brightness. At 100 lumens, the 5 Watt Luxeon LED flashlight is brighter than most 5 D battery flashlights, yet runs on the included 2 AA batteries for up to 2 hours run time. Consumers using 2 AA Lithium batteries can expect up to 10 hours of run time. The light also includes a removable pocket clip, wrist lanyard and a holster in addition to the 2 AA batteries. A true tactical tail cap switch allows users to twist all the way for constant on, or simply back off a half twist for momentary mode. Then, when you're ready to put the light away, another half twist allows the light to safely be stored without worries of accidental illumination.Retail \$54.95

SWL090WT Galaxy™ LED Flashlight. 4" overall. Black anodized aluminum housing. Nine ultrabright white LED's. Push button switch. Visible over one mile. Uses three AAA batteries. Hang packaged.....Retail \$23.95

Smith & Wesson®

SWLMT9 Micro90™ Compact LED Pistol Light. 2 3/8" overall. Black ABS housing. White LED. 90 lumen "out of bezel" blinding light. Float glass lens. Runtime: up to 2 continuous hours. 6062 deep groove aircraft aluminum bezel. Precision focused aluminum reflector. Fits virtually all accessory rails. Multi-faceted UniBar™ Latch Bar. Ambidextrous switch control. Momentary and constant on modes. Ultra lightweight. Advanced micro technology, ideal for subcompact and concealed carry use. Uses one CR2 battery (included). Weighs: 1.6 oz. Hang packaged.**Retail \$98.95**

SWL1004CREE Cree™ M&P Personal Flashlight.

At 200 lumens of pure white long range light, it will certainly illuminate at great distances while also allowing a certain amount of "spill light" for objects in closer range. In addition, this Type II anodized aluminum light has a total run time of up to 10 hours with about 3 hours of blinding brightness, then another 7 hours of still usable light on one set of 2 CR123 batteries (included). A new tail cap design also allows the user to have both a "tactical tail cap" as well as a "click on/off tail cap" in one simple tail cap. This .85" diameter version (as opposed to the 1") is not intended for gun mounting purposes although it can be used on guns. It's designed for the professional who prefers a handheld unit. The .85" diameter is also better for users with smaller hands.**Retail \$100.95**

SWL1008CRRW M&P8 (Military & Police) 4.5V LED Light. 6" overall. Black anodized aluminum construction with pocket clip. 1 1/4" diameter barrel. 4.5 Volt Cree™ LED with up to 150 lumen output. Dual Function white beam with red navigation LED. Anti-roll tactical tail cap switch for momentary and constant on/off. Barrel switch for red LED functions. Impact and water resistant. Uses 3AAA batteries (included). Up to three hour burn time per battery set. Beam is visible up to 118m. Boxed with black cord lanyard and black nylon belt sheath.**Retail \$119.95**

Airweight® offers a 45% weight reduction with 98% of the striking potential of steel. Not recommended for uniform duty use.

Black Chrome provides the most durable and corrosion resistant black finish available for 4140 high carbon steel. Foamed vinyl grip.

Chrome delivers a high luster finish for increased visibility under low light conditions.

Federal models feature black chrome shaft with Duratec molded grip.

Electroless is the most corrosion resistant finish. It is well suited to high humidity environments. Foamed vinyl grip.

Tactical Batons®.

The ASP Tactical Baton® is the most tactically sophisticated impact weapon currently available to law enforcement personnel. Tested by the most elite federal teams, the ASP Baton has proven itself "virtually indestructible." The premium materials, exceptional workmanship and flawless function of the ASP Baton set it apart from all others in quality, durability and performance. In every detail, this is the finest impact weapon produced.

Tactical Handcuffs. Strength potential has been maximized through use of an interlocking, unitized frame. The cuff structure is forged from high strength stainless steel. Each restraint is then overmolded with ordnance grade polymer under 75 tons of pressure. The Lock Assembly is unitized and replaceable. A flat contact bow improves application. There is a key hole and double lock slot on each side of each restraint. A double lock warning bar is readily visible. Both double and single locks are released by turning the key in a single direction. The frame geometry, deep set teeth and precision smooth action eliminates the need for back loading.

ASP56101 Black.Retail \$53.95

ASP56102 Yellow.Retail \$63.95

Tri-Fold Single-Use Restraints.

Compact, easily carried and rapidly applied. Specifically designed to law enforcement standards, the wide brightly colored straps have no sharp edges. Tri-Fold restraints open to oversize loops and are rapidly pulled to close for secure detention. The RollerLoc ratchet device has an extremely smooth pull with a covered locking mechanism. They are the most tactically sophisticated disposable restraints on the market. Pack of six.

Hang packaged.....Retail \$26.95 each

ORM-D

The thick gel formula sticks like glue to the face of an assailant leaving them temporarily blinded, which allows for a safe escape.

Stronger formula.

Hotter than any other pepper spray on the market.

Non-toxic and causes only temporary discomfort. Less contaminating.

Ideal for indoor use because it allows an assailant to be sprayed without contaminating the surrounding area.

MSI80269 10% Pepper Gel Defense Spray with UV Dye.
Large Model. Flip-Top safety cap. Contains about 7 one second bursts. Effective range about 18 feet. Net weight 45 grams/1.59 oz. Hang packaged.Retail \$22.95

Inferno Ultimate Dual-Action Pepper Defense Spray.
Deploys a highly targetable foam that contains 8% Oleoresin Capsicum, and 2% black pepper which dissolves into a liquid on contact. High quality propellants atomize the flaming hot chile pepper particles 2,000 times finer than other propellants, pulling the chile pepper extract deep into the mucous membranes, reducing breathing to life support levels. Contains no carcinogens or isopropyl alcohol. Hang packaged. Made in USA.

VX-3L Riflescopes.

Combines the low-light performance of a larger objective VX-3 with a revolutionary design that hugs the barrel of your rifle. Features include: (1) The Light Optimization Profile™ allowing your large objective VX-3L® to hug the barrel, for the more natural cheek weld of a much smaller objective rifle scope. Mount your 50mm VX-3L as low as a traditional 36mm rifle scope! (2) The Extended Twilight Lens System™ optimizes the transmission of low-light wavelengths, so you see the details of low-light scenes in greater, brighter detail than with any other rifle scope available.

(3) DiamondCoat 2™ lens coatings on exterior lens surfaces provide the highest level of scratch resistance Leupold has ever offered. Blackened lens edges reduce light diffusion, so more usable light reaches the shooter's eye, for a brighter image with increased contrast. (4) Finger-adjustable, cryogenically treated, ¼-MOA click windage and elevation adjustments with resettable pointer dials marking the zero point. Tactile power indicator also features built-in range estimation functions and graphite O-rings for easy operation. (5) Internally threaded, lockable, extreme fast-focus eyepiece with Alumina rubber eyepiece guard. (6) Absolute waterproof integrity using Leupold's proprietary Argon/Krypton gas blend.

NN8367

NN8368

NN8377 RifleHunter 1000

Laser Rangefinder. 6x21. Measures 4 1/2" x 2 7/8" overall. Features active brightness control viewfinder. Bright, multi-coated 6x optics. Quickly ranges out to 1,000 yards. Measurement accuracy in case of actual distance: ±1yd/m (up to 500yd/m). Fast, single button operation. Wide 7.5° field of view. Powers down after 8 seconds of non-use. Waterproof/fogproof (except for battery chamber). Uses one CR2 battery (included). Black nylon carrying case and strap. Color: Black.Retail \$591.95

RifleHunter 550 Laser Rangefinder.

Incline/Decline (ID) technology compensates for elevation changes and translates the geometry into horizontal yardage. Just range your target and concentrate on squeezing the trigger – leave the calculations up to Nikon. It's waterproof, fogproof and offers 6x magnification and generous 18mm eye relief, great for eyeglass wearers. Accurately ranges to 550 yds. CR-2 lithium battery and case included.

- NN8367 Brown and black body.Retail \$468.95
- NN8368 Max-1 HD camo body.Retail \$501.95

NN8369 Pro Staff 550

Laser Rangefinder. 6x multicoated monocular for clear view. Waterproof, fogproof for use in any environment. Boasts a generous 18mm of eye relief. Accurately ranges to 550 yds. CR-2 lithium battery and case included. Forest green and black body. Weighs 6.3 oz. without battery.Retail \$347.95

NN8366 Archer's Choice

Laser Rangefinder. ID (Incline/Decline) technology. 6x, bright multicoated optics. Provides fast and accurate ranging over flat ground, from treestands or in steep terrain. Quickly and accurately ranges to 100 yards. Displays in 0.2-yard/meter increments in ID Technology Mode, 0.5-yard/meter increments in standard mode. Long eye relief (18mm). Includes a single motion lanyard. Slim design for one-handed operation. Waterproof/fogproof construction. Forest green and black finish body and case. Uses CR2 Lithium battery (included)Retail \$446.95

NN8376 Archer's Choice MAX™ Laser Rangefinder.

6x21. Measures 4 1/2" x 2 7/8" overall. Features active brightness control viewfinder. Bright multi-coated 6x optics. Quickly ranges from 5 to 200 yards. Measurement accuracy in case of actual distance ±1yd/m. Fast, single button operation. Wide 7.5° field of view. Powers down after 8 seconds on non-use. Waterproof/fogproof (except battery chamber). Uses one CR2 battery (included). Camouflage neoprene carrying case with black strap. Color: Hunter green and black.Retail \$568.95

The trusted name in optics™

NN8202 Sportstar Compact Binocular.

10x25. Field of view: 340 ft. at 1000 yards. Durable water resistant black rubber armor with silver trim. Features turn and slide eyecups which retract for eyeglass wearers. Multicoated optics provide optimum brightness and high contrast. Close focus to just 9.8 feet. Fast, convenient central focusing. Diopter control allows for correction of normal right eye/left eye vision imbalance. Internal blackening minimizes reflection, increases light transmission. Folds to less than 3" x 5". Comes with padded carrying case and neck strap.**Retail \$98.95**

NN7217 Action VII Binoculars. 7x50. Field of view: 335 feet at 1000 yards. Aspherical eyepiece lenses. Multicoated optics. Center focus. Black rubber armored body. Padded carrying/storage case. Wide neck strap. Tripod adaptable.....**Retail \$146.95**

NN7510 Travelite V Binoculars. 10x25. Features: (1) Aspherical lenses for minimizing distortion, (2) Click-type diopter control for strain-free viewing, (3) Bak-4 high-index prisms, (4) Multi-coated optics, (5) Rubber covered body and (6) Easy grip compact design.....**Retail \$160.95**

NN7246 Action Extreme Binoculars. 12x50 wide angle. Field of view: 288 feet at 1000 yards. Traditional Porro style with waterproof, fogproof and shockproof attributes of Nikon All Terrain Binoculars. The trusted name in optics™

Nikoplex Reticle.

Precise, hand-turn 1/4-MOA click adjustments. Positive-click reticle adjustments get you zeroed-in quicker and maintain your setting even with heavy recoil.

Patented BDC

(Bullet Drop Compensation) Reticle.

The BDC reticle allows hunters to hold "dead-on" at ranges exceeding those previously thought possible. The BDC's unique see-through ballistic circles offer an incredible advantage for long range shooting—yet allows a normal sight picture for shorter-range shots where the crosshair itself is the aiming point. Large exit pupils offer improved low light hunting at dawn or dusk, when game is usually moving. Precise, hand-turn 1/4-MOA click adjustments. Positive-click reticle adjustments get you zeroed-in quicker and maintain your setting even with heavy recoil. Quick focus eyepiece allows the shooter to instantly bring the reticle into sharp focus.

Made in Russia

PREMIUM NIGHT VISION OPTICS
FROM NIGHT OWL - ASSURING QUALITY,
INNOVATION AND LEADERSHIP.

NOXB3 Explorer Pro 3X Binocular.

3x magnification. Field of view 583 feet at 1000 yards. Rubberized finish protects against rugged use. High performing intensifier tubes cradled inside Night Owl Optics unique steel stringer system giving precision and control. Powerful infrared illuminator provides clear and bright viewing in complete darkness. Low battery indicator and extended infrared operation at low battery voltage. Operates on CR123 3v battery. Weighs 32 oz. Comes with black nylon case. Generation 1 technology.

.....Retail \$884.95

NO4X Marine Night Scope Night Vision Monocular. 4.0x image magnification. 500x ambient light magnification. Field of view 56ft@200ft. IR field of illumination is 32ft diameter at 150ft. Image intensifier tube technology. One hand operation. Blue and black 100% waterproof body, rubber coated for optimal grip. Operates on CR123 3v battery. Weighs 14.5 oz. Comes with black nylon case. Generation 1 technology.

.....Retail \$539.95

NOXB5 Explorer Pro 5X Binocular.

5x magnification. Field of view 723 feet at 1000 yards. Rubberized finish protects against rugged use. High performing intensifier tubes cradled inside Night Owl Optics unique steel stringer system giving precision and control. Powerful infrared illuminator provides clear and bright viewing in complete darkness. Low battery indicator and extended infrared operation at low battery voltage. Operates on CR123 3v battery. Weighs 40 oz. Comes with black nylon case. Generation 1 technology.

.....Retail \$1,019.95

NOGEN Night Scope Night Vision Monocular.

2.0x image magnification. 500x ambient light magnification. Field of view 70ft@200ft. IR field of illumination is 32ft diameter at 150ft. One hand operation. Black housing. Operates on CR123 3v battery. Compact design. Weighs 9.1 oz. Comes with black nylon case. Generation 1 technology.

.....Retail \$319.95

NOB2FF Fixed Focus Night Vision Binoculars.

Rubber coated black finish. 2x magnification. Two electronic intensifiers (EIT) inside steel stringer system for precision and control. Powerful built-in infrared illuminator provides clear and bright viewing in complete darkness.

All glass optics for both objective and ocular lenses. Field of view 106ft@200ft. Uses one CR-123 3v lithium battery (not included). Comes with padded carrying case.Retail \$787.95

NOM4X Night Vision Monocular.

Black rubber comfort grip. 4x magnification. Field of view: 56 ft. @ 200 ft. Features infrared illuminator. Electron bombardment technology. 500x light amplification. All glass optics. Ocular lens. Phosphorescent screen. Objective lens. Photo Cathode screen. Lightweight design. Easy to use. Weighs only 14.5 oz. Uses one CR-123/3 volt lithium battery (not included). This monocular allows you to see in total darkness. (Not for use in day light). Ideal for camping, wildlife observation, hunting, hiking and security. Comes with black nylon carrying case.....Retail \$451.95

NOM3XG Night Scope Night Vision Monocular.

Black rubber comfort grip. 3x magnification. Field of view: 68 ft. @ 200 ft. Features infrared illuminator and high grade objective lens. A photo cathode screen converts the light into electrons and then displays the image on a phosphorescent screen. Lightweight and easy to use. Operates on one

CR-123/3 volt lithium battery (not included). This monocular allows you to see in total darkness. (Not for use in day light). Ideal for camping, wildlife observation, hunting, hiking and security. Comes with black nylon carrying case.....Retail \$346.95

NOBG1 Tactical Goggles.

Range of view 455 feet. Field of view 1742 feet at 1,000 yards. Compact and lightweight night vision binoculars. High quality intensifier tubes and optics combined with real image provide for bright, vivid images, extreme close-up focusing and extra-wide field of view. Built-in infrared illuminator allows use in complete darkness. When used as goggles, the unit can be quickly removed from the head mount (included), or you may flip the unit up with the push of a button without having to remove them from the head mount. Automatic light protection sensor. Black nylon storage case.

Law enforcement professionals, hunters, boaters, hikers, birders and outdoor enthusiasts all over the world rely on Steiner's unmatched performance. Steiner offers the most advanced optics technology, precision manufacturing and the fact that many of their binoculars undergo the toughest U.S. Military spec testing. Steiner Binoculars are tougher than ever, extremely lightweight, with innovative design, durable construction and the benefit of German-engineered optics technology for a lifetime of dependable performance!

ST185 Marine Navigator Binoculars. 8x30. "Anti-haze" optics for day time and low light performance. Porro prism. Sports Auto-Focus. Field of view: 360 feet at 1,000 yards. Waterproof and fogproof. Comes with neck strap and carrying case. Navy blue rubber armor.**Retail \$477.95**

ST236 Predator Pro. 10x26. Field of view: 289 feet at 1,000 yards. Center-focus. Incorporates the newest Steiner PC-5 coatings on every lens surface throughout the system. This delivers higher contrast and greater light transmission than older models. Fog proof and waterproof. Eye relief 11mm. Weighs 10.1 oz.**Retail \$335.95**

ST254

ST256

ST250 Predator C5. 10x42. Developed as a special tool for hunters and nature observers to easily spot animals in a woodland setting. Rigid chassis is mil.spec waterproof and dry-nitrogen pressurized. Field of view: 315 feet at 1,000 yards. Weighs 26.4 oz.**Retail \$1,227.95**

Predator C5.

Offers larger objective lenses for even better light gathering, higher resolution and greater detail. Utilizes the unique high contrast lens coating that helps you spot hidden game by blocking the colors of haze and foliage, enhancing the visibility of browns, reds and other wildlife colors. With the larger 56mm objective, viewing times will be extended and images will be brighter and clearer than ever. Features phase coated roof prisms, exceptionally bright images with excellent contrast, polycarbonate chassis that is both durable and waterproof, precise Fast-Close focus, long eye relief with twist up/down eyecups, and the ergonomic styling makes them easy to use and focus. Forest green rubber armor. Includes neoprene comfort strap, rain guard, attached objective lens caps and black thermo molded carrying case.

ST254 8x56. Field of view: 366ft @ 1000yds. Eye relief: 16.25mm. Close focus: 8.2ft. Weighs: 40.2 oz.**Retail \$1,441.95**

ST256 10x56. Field of view: 327ft @ 1000yds. Eye relief: 17mm. Close focus: 7ft. Weighs: 42.3 oz.**Retail \$1,601.95**

Auto-focus sharp from 20 yards to infinity with little or no readjustment needed. High contrast lenses block colors of haze and foliage, enhancing visibility of wild life.

ST288 Predator Pro 8x30. Field of view: 360 feet at 1,000 yards. Weighs 18 oz.**Retail \$491.95**

EU41250 Silver City Backcountry Sleeping Bag. Dimensions: 82" x 32". Rated to 30°F/-1°C. Rteq™ insulation is a proprietary blend of four unique polyester fibers, each chosen for its specific characteristics of denier, loft, weight and thermal efficiency. This advanced blend provides the perfect balance of warmth, durability and compressibility that make Eureka! bags the ideal choice for users who need a lightweight bag and minimal pack size! The warm-to-touch, peached polyester lining combines the performance value of a synthetic fabric with the soft feel of cotton. The slightly fuzzy texture provides added warmth and comfort in any condition. The anatomically designed trapezoidal foot box allows for a comfortable night's sleep by letting your feet rest in their natural position. The insulation-filled draft tube runs the entire length of the zipper, providing even insulation coverage and preventing warmth from escaping through the zipper. The ergonomically positioned internal pocket is perfect for night time essentials like a watch, phone or glasses. Hook & loop closure keeps items securely in place. Mummy style design. Size: Regular/Right Zipper. Stuff size: 14" x 7.5". Fill Weight: 1lb. Fill Type: RTEQ. Seasons: 3. Carry Weight: 2lbs. 4oz. Bulk packed.**Retail \$218.95**

Tetragon with rain cover.

Tetragon Series. Durable shockcorded fiberglass frame, ring and pin attachments, and color coded webbing make set up fast. Brim over twin-track, side-opening door offers protected front entry; brimmed rear window allows ventilation during inclement weather. Bathtub floor protects against splashing rain. MCN41200 Aquamira® Water Bottle & Microbiological Filter.

Provides a safe and effective way to enjoy clear, clean tasting water on the trail, in foreign countries or anywhere! A high quality 22 fl oz. (650ml) sport bottle, featuring a protective flip-cap and sturdy Nalgene® construction. All Aquamira® filter systems use the "torturous path" method of filtration, designed to provide greater effectiveness than common thin-walled fiber filters. The tiny intricate pathways in the filter trap 99.9% of harmful Cryptosporidium, Giardia and other pathogens, including waterborne insect larvae and many bacteria such as E. Coli. The activated carbon reduces waterborne chemicals and improves water taste while Miraguard™ Antimicrobial Technology suppresses the growth of bacteria, algae, fungus, mold and mildew within the filter media. Miraguard™ does not protect users against food borne or disease causing bacteria, viruses, germs or other disease causing organisms. Each filter treats up to 230 refills. Fits most bicycle water bottle cages and pack pockets. Lexan® flip cap protects spout from dirt and other contaminants. Lightweight, easy-to-use system is ideal for wilderness or adventure travel, daily use at home or work, camping, bicycling and more. Made in U.S.A.Retail \$24.95

MCN42100 Aquamira® Frontier Emergency Water Filter System.
Removes 99.9% of harmful Cryptosporidium, Giardia. The activated carbon reduces waterborne chemicals and improves water taste. Weighs less than 1 oz. Ideal for hiking, traveling and emergency preparedness. A perfect addition to an emergency kit. Filters up to 20 gallons. Easily slips into day pack, waist pack or travel luggage. Useful as a back up on multi-day backpacking trips. Provides the ability to drink directly from any water bottle, cap or directly from water sources. Hang packagedRetail \$10.95

MCN42105 Frontier™ Pro Portable Water Filter.

Provides all the benefits of a larger bottle filter in a package the size of a compact flashlight. Straw style filter attaches directly to water bottles, bladders, cups, hydration packs or directly from the water source. Attached cap keeps mouthpiece clean. Designed to fit in the palm of your hand. Flexible "Integrated Strap Grip" secures cap to filter when not in use and allows for easy cap removal. Bite Me™ valve can also be removed to use as hanging drip filter. Replacement pre-filters lengthen filter life. Filters up to 50 gallons with no wait time. Miraguard™ Antimicrobial Technology suppresses the growth of bacteria, algae, fungus, mold and mildew within the filter media. Miraguard™ does not protect users against food borne or disease causing bacteria, viruses, germs or other disease causing organisms. Weighs: 2 oz. (dry). Includes Frontier™ Pro, universal 28mm thread/tube adapter, UQC adapter, draw tube, (4) prefilters, storage pouch and operation instructions. Made in U.S.A.Retail \$24.95

MCN41204 Aquamira® Water Bottle Microbiological Replacement Filter.
For use with item number MCN41200 Aquamira® Water Bottle. Tested and certified to remove over 99.9% of Cryptosporidium and Giardia. Improves taste and eliminates odors. Filters up to 460 refills (100 gallons). Easy to use. Environmentally safe and friendly (BPA free). Boxed with hanging tab.Retail \$11.95

MicroNet™ Microfiber Suede Towel.

Ultra-compact micro-suede fabric - holds 5 times its weight in water. Includes convenient hanging loop. Dries fast - hand wringing removes 90% of water.
