**TacTie™ Attachment Strap System** is used to integrate accessory pockets onto packs, vests, MOLLE equipment and PALS surfaces effortlessly in an interlocking manner. Closed loop design provides an extremely secure connection. Once properly engaged, a TacTie™ strap will not open unless deliberately disengaged by the user. Detachment is quick and easy by hand. There is no need to use special tools. Once the pouch is detached from the pack, the TacTie™ straps remain secured on the pouch so they are not misplaced or lost. Works seamlessly with all current and past Maxpedition® products, also works on your existing MOLLE pouches by other manufacturers. Completely reusable and interchangeable. Not affected by heat or cold and will never corrode. Pack of 4.

**Grimloc™ Locking D-Ring.** Can be used on any 1" wide piece of webbing and replaces the metal carabiner for attachment of lanyards, weapons, and accessories. Fabricated from high strength lightweight plastic, incorporates GhillieTex™ IR-signature reduction technology, and resists solar heating. Its latch is designed with a detent to maintain an open position if needed and, while strong enough to carry equipment, it will break away with a soldier's weight, eliminating snagging hazards which can cause serious injuries. Release button is textured for ease of use with gloved hands and works as a pump for purging trapped sand or water through integral drain holes. Since the Grimloc™ is made from plastic, it will not serve as a platform for ricochets or become a secondary projectile. Used extensively by the United States Army and Marine Corps. Pack of four.

**Fatboy S-Type Versipack.**

NTOA TESTED & RECOMMENDED. Better For Left Side Carry. Concealed Carry Bag. Main: 8" x 6.5" x 3". Frontal: 7" x 5" x 1.5". Rear: 8" x 7.5". Side A: 6" x 3" x 1.5". Side B: 5" x 1.5" x 1". Shoulder: Integral 2" strap (min 40" diameter / max 60" diameter) with non-slip shoulder pad. The MAXPEDITION Fatboy S-Type Versipack was originally designed for Search and Rescue work, the S-type allows for the additional attachment of the CP-L Radio Holster or any other MAXPEDITION accessory pocket in place of the cell phone pocket on the standard Fatboy. In addition, the Fatboy S-Type rides on the left side of the body filling the need for a 'lefty' Fatboy and a grab-and-go gear bag that does not hinder the quick drawing of a sidearm on the right hip. It also has a 2" wide Velcro loop patch on the front lid for attachment of ID patches. The Fatboy's rear slip compartment is now equipped with large loop Velcro patches to accommodate our Hook & Loop Modular Accessories (Universal Modular Holster, sold separately). This allows the user to position their concealed carry firearm for a quick strong side draw or weak side cross draw. Empty Weight: 17.6 oz. ....Retail \$86.95 each
