Made in USA

The Sterling Knife Sharpener is the perfect pocket sized sharpening tool for knives and broad heads. From the field to the kitchen, the boat to the campsite, you cannot find a more easy to use sharpener. Within a few strokes your blade will be as sharp as new. For very dull knives more pressure and strokes may be required. No messy honing oils are required nor are there confusing multiple steps that many sharpeners have. Sterling is that easy.

.STERLING.
KNIFE SHARPENER

Place the knife into the carbide 'V'. For best results, secure sharpener flat on the edge of a surface (table, rock, stump, bench) and move the knife downward through the wedge. A light to moderate pressure is all that is required with only a few number of passes needed to fully sharpen the blade. The Sterling Sharpener features a tungsten carbide sharpening surface that sharpens all types of blades, including kitchen, hunting, fishing, and pocket knives.

The Sterling Sharpener is a patented aluminum tool designed to be put on a key chain, carried in a pocket and used at home. It can be used by either right or left handed people.

Compact Knife Sharpener. Lightweight aluminum body with lanyard hole. Measures 3". Features tungsten carbide V sharpening insert. Easy to use. Weighs only .5 ounce. Bulk packed. Made in U.S.A.Retail **\$13.95 each**

FUR652 Rachael Ray Power Edge Electric Knife Sharpener.
Measures 7" overall (not including the 6' cord). Black composition housing. Gentler than regular electric sharpeners and faster than manual sharpeners, the Power Edge sharpener has interlaced Diamond Fingers on two rotary discs that creates a "Vee" so your blade is automatically sharpened and honed on both sides simultaneously. For regular maintenance of knife blades, press lightly while drawing the blade through the Diamond Fingers® to gently hone the edge in the non-diamond section at the top of the fingers. To resharpen a worn blade, press down while drawing the blade through the rotating Diamond Fingers®, where metal will be gently and evenly removed to reshape rounded or damaged edges. Reversible for either left or right hand use. Clear plastic hand guard. Ideal for regular European/American knife edges or finer Japanese Santoku. Wipe clean with a damp cloth.Retail \$49.95

Füri®

FUR657 Rachael Ray Sharp N' Go Knife Sharpener.

THLC

Tru Hone® Commercial Electric Sharpener.

Three sharpening steps.

Step 1 - Grinds the bevel - consistently develops an equal bevel on both sides of the blade.

Step 2 - Sets the edge - perfects and strengthens the cutting edge created by the bevels.

Step 3 - Honing - finishes the edge to a final razor sharpness and eliminates any remaining imperfections in the cutting edge.

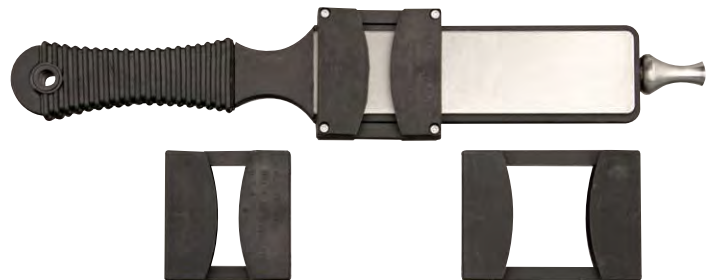

Takes less than one minute to put a perfect edge on a blade versus an average of 12 minutes using traditional sharpeners. The Tru Hone® Sharpening System can also add up to 50% to the life of a knife because it removes as little metal as necessary to produce a sharp edge. Stainless case is easy to clean.

BY200 Duckfoot Diamond Sharpener.

6 7/8" overall. Measures 3" at the widest point. The sharpener is comprised of a steel form, in the shape of a duck's foot, that has been bonded with 600 mesh mono crystalline diamonds. The sides are elliptically shaped with a large radius for plain edges, and a small radius for serrated edges. There is a 1" by 5" flat surface and three grooves that include a wide channel for de-burring, and a narrow channel for sharpening pointed objects. A 20 degree angle for sharpening knife blades is created when the Duckfoot is held vertically on a tabletop, and tilted to raise one edge off of the table; when laid horizontally, a 12.5 degree angle for scissors sharpening is created. A suede leather carry case that doubles as a non slip pad is included. Comes with instructional DVD video.Retail \$54.95

Storage and carrying case for GPS, two-way radios, compact cameras, electronic dog training systems, etc. Ideal for around the house, in the truck or going through airport security when traveling. Three-layer foam set with a thick layer of "Pluck & Pull" foam. Just "pluck and pull" the foam into your ideal configuration for the ultimate in personalized storage protection. The clear, battery organizer holds up to 20 AA or 28 AAA batteries. The case includes battery organizer and three piece foam set. Bulk packed. Color: Translucent.**Retail \$19.95**

All cases feature room for a trigger lock (not included). Durable, rugged polypropylene construction. Large, comfortable handle. Thick foam inserts. Easy to open double snap latches. Pad lockable. Scratch resistant. Bulk packed. *Guns and other props are not included with the cases. For illustration purposes only.*

MTM30150 Single Handgun Case.

Exterior Dimensions: 13.1" x 9.7" x 3.2".
Interior Dimensions: 12.5" x 8.1" x 3.0". For automatics and scoped revolvers with barrels up to 6". Color: Black.**Retail \$11.95**

MTM31540 Single Handgun Case.

Exterior Dimensions: 10.1" x 8.0" x 3.2".
Interior Dimensions: 9.7" x 5.7" x 2.8". For semi-automatics (such as the 1911 up to N-Frame size S & W's) and revolvers with up to 4" barrels. Color: Black.**Retail \$10.95**

MTM36042 Site-In-Clean® Gun Rest. Measures 11" x 20" x 4" closed. Great for sighting in rifles and shotguns. The rear fork of the Site-In-Clean® Rest can be removed for fast shooting. Great option for Varmint hunters. Rubber over-molded, padded forks are adjusted and held in place by using two of four slots located in the base of rest. Rear elevation adjustment dial allows for precise horizontal positioning. Guns are gripped for quick and easy shooting or cleaning. Color: Red.**Retail \$66.95**

MTM30640 Two Handgun Case.

Exterior Dimensions: 15.5" x 12.2" x 3.6".
Interior Dimensions: 14.7" x 10.6" x 3.3". Stores two automatics or two revolvers with barrels up to 8". Color: Black....**Retail \$20.97**

MTMAC30P Ammo Can .30 Caliber.

Exterior Dimensions: 7.4" x 13.5" x 5.1". Interior Dimensions: 6.0" x 11.2" x 4.0". A great way to store bulk or boxed ammo. Its' all plastic design is lighter in weight than .30 caliber surplus US Military ammo cans. Transferring ammo to and from the range, just became a little easier! Also ideal for bulk .45 ammo. Molded out of rugged polypropylene plastic, this comfortably handled ammo can will hold up to some pretty harsh treatment. Utilizing MTM's tongue and groove O-Ring seal system for a superior water-resistant seal. A heavy-duty dual latching system makes for a better seal and less likely to open accidentally. Double padlock tabs along with molded-in stacking ridges, make these solid containers the perfect solution to so many storage needs. Designed to fit the same amount of bulk ammo as the original. Weight: 1.38 Pounds. Bulk packed. Color: Forest Green.**Retail \$15.95**

MTM30840 Four Handgun Case.

Exterior Dimensions: 15.5" x 12.2" x 5.6".
Interior Dimensions: 14.7" x 10.6" x 5.3". Double sided case is made to safely carry four automatics or four revolvers with barrels up to 8". Three piece foam insert set. Color: Black.**Retail \$26.95**

MTMAC50P Ammo Can .50 Caliber.

Exterior Dimensions: 7.4" x 13.5" x 8.5". Interior Dimensions: 5.8" x 11.0" x 7.2". A great way to store bulk or boxed ammo. All plastic design is lighter in weight than the 50 caliber US Military Surplus Ammo Can. Transferring ammo to and from the range, just became a little easier! Molded out of rugged polypropylene plastic, this comfortably handled ammo can will hold up to some pretty harsh treatment. Utilizing MTM's tongue and groove O-Ring seal system for a superior water-resistant seal. The 50 caliber can is designed to fit the same amount of bulk ammo storage as the original. A heavy-duty dual latching system makes for a better seal and less likely to open accidentally. Double padlock tabs along with molded-in stacking ridges make these solid containers the perfect solution to so many storage needs. Bulk packed. Color: Forest Green.....**Retail \$18.95**

MTM36096 Long Term Storage Handgun Case.

Exterior Dimensions: 10.2" x 7.2" x 2.2". Designed for long-term handgun storage of semi-automatics and revolvers with barrel lengths of 4" or less. Non-Hygroscopic foam padding. The case comes with a closed cell foam pad on which the gun lies. Closed foam does not wick away as much gun oils as the standard open cell foams do. A compartment is included for desiccant and a second compartment will accommodate a magazine or cleaning component. It also includes a 25-round ammo tray for 9MM, 38/357, .44 Mag. or 45 ACP. Moisture control sorbent packet. Pad lockable. Bulk packed. Color: Black.....**Retail \$19.95**

PL1400 Protector™ Case 1400.

Unbreakable, watertight, dustproof, chemical resistant and corrosion proof. Offers total protection for your equipment. Constructed of ultra high impact structural co-polymer. Black finish. Its exclusive 1/4" polymer O-ring and ABS latches seal perfectly. Includes an automatic purge valve for quick equalization after changes in atmospheric pressure. High density foam for total subjection and protection against impact, vibration or shock. A nameplate (included) can be personalized. Exterior measurement 13 3/8" x 11 5/8" x 6". Interior measurement 12" x 9 1/16" x 5 3/16".....**Retail \$144.95**

Watertight.

The key to a watertight Micro Case is its tough polycarbonate body and the rubber liner. When closed, the lid creates a tongue-and-groove fit with the shock-absorbing rubber liner, which doubles as an O-ring. Splash it, drop it in the river. No problem. Contents are safe and dry. The Automatic Pressure Purge Valve works on the molecular level. It uses a Gore-Tex® membrane that allows high pressure air molecules caused from altitude changes to escape. But water molecules, which are larger, are prevented from entering. The result: equalized pressure inside and outside the case, and it's easy to open. All without having to think about it.

closed

PL0910 Memory Card Case. Measures 4 7/8" x 3" x 1". Black polycarbonate resin construction. Stores up to 8 SD cards and 16 mini SD cards. Removeable insert liner absorbs shocks and protects memory cards. Water resistant seal. Hang packaged. *Cards not included.*.....Retail \$32.95

Always on locking switch. Dual light source: three 1 watt high power white LED's for long range with up to 193 lumen output and six green LED's for immediate area use. Over 3 hours burn time on high power and over 100 hours burn time on low power. Integrated power meter. Uses six AA batteries (included). Hang packaged.....**Retail \$53.95**

charger included

shown in charger

Light for Life™ Rechargeable Flashlights. Durable black polymer body that is abrasion, crack and bend-resistant. Textured surface. Charges in 90 seconds. Runtime: 60 minutes at 90 lumens, cycling down to 25 lumens for 30 minutes and finally 15 lumens for 30 minutes. Reserve power. Eco-Technology - rated for 50,000 charge/discharge cycles (that's one charge a day for 135 years) and comes with three LEDs that provide more than 50,000 hours of light. Precision engineered reflector. Reinforced solid state components. No-roll hexagon head. Premium CREE® LED technology. Buoyant and water resistant. NO BATTERIES - powered by ultracapacitors. Features a sophisticated energy management system (FlashPoint™) that merges state-of-the-art ultracapacitors with advanced solid-state programming to efficiently load, unload and manage energy. This allows the light to rapidly charge and then release that stored energy in a safe, efficient manner. Patent-pending 360° charging interface allows free rotation in charger. Includes 12 Volt DC charger with patent-pending MagnetoAlign™ feature that snaps light into place to ensure alignment, black composition belt ring with nylon strap and a mounting bracket.

UC3.400 Series.

11 1/2" overall. Up to 120 minutes runtime. Charges in 90 seconds. Peak (270 lumens). Click once from any mode to turn flashlight off. You may activate the various modes by pressing the side button (I/O) on the flashlight. Features on/off switch on body. Includes 12 Volt AC adapter.
